

Started in 2016 with goals of doing things a little bit differently than our peers, Method Engineering & Building Services Ltd. (METHOD) has an opportunity for a dedicated, detail-focused, and passionate Building Science Technologist to grow their career at our firm in Victoria.

## **WHY ARE WE HIRING?**

- ◆ Talented Company + Great Clients + Busy Market = Lots of work
- ◆ We suspect there is a Building Science Technologist out there that loves the tight-knit feel of small business. They want to be a part of METHOD's culture, corporate structure, and future and not just another cog in a big corporate machine.

## **WHAT IS WORKING AT METHOD LIKE?**

- ◆ We like working on buildings.....we LOVE working on buildings with Clients that value quality and a smooth process. While buildings are our work-passion, we are ultimately motivated by making our Clients happy by exceeding their expectations. "Experience Exceptional Engineering"
- ◆ We are passionate about our work. That is why people enjoy working with us. We take pride in delivering professional, quality, and timely service to our Clients.
- ◆ We sprint. The work environment at METHOD is dynamic and we frequently run between jobs/tasks keeping schedule and quality at the front. Consulting 101.
- ◆ We take staff development and mentoring seriously. We provide ongoing in-house and external learning opportunities. Career development requires engagement from both parties so if you have a passion that you would like to explore, we are all ears.
- ◆ We give our staff freedom of schedule. We leave it to our staff to manage their workload, timelines, and personal commitments. We understand that life doesn't always do the "9-to-5" thing. We work with our staff to ensure personal commitments fit within the work life. Things like going to your kid's game, a medical appointment, or just wanting to get out early on a Friday afternoon!
- ◆ We live in Victoria; best City in Canada! City life with nature easily accessed, relaxed pace of life, great climate, wonderful people.

## **JOB ROLE: ENGINEERING TECHNOLOGIST AND COORDINATOR**

We are looking for a Technologist that is keen to participate in a wide range of projects, such as: design, drafting, project coordination, and support to our field services

### **Anticipated Duties**

You will be participating in a range of tasks:

- ◆ Design and Drafting – We do our own drafting as part of conceptual design and detailed design services. Drafting skills with AutoCAD is a requirement. Familiarity with SketchUp or a similar rendering program is an asset.
- ◆ Energy Project Coordination – This is an area of work at METHOD that is growing. We currently have Energy Advisors, Certified Passive House Designers, and a Certified Passive House

Tradesperson on staff. We need someone to manage opportunities, communicate with clients, and coordinate project deliverables.

- ◆ Field Services Support – Provide support to our field staff, when needed. We strongly believe that field work makes us better at all aspects of our job. Plus, we love getting out of the office. Tasks could include review of construction while in progress, participating in energy assessments, and assisting with site investigations.

### **Qualifications, Skills, & Traits**

- ◆ Technologist diploma (Engineering, Architecture, or associated field)
- ◆ Drafting experience, using AutoCAD
- ◆ Experience in Building Science
- ◆ Excellent communication skills. Being able to write in a clear, concise manner is critical.
- ◆ Pride in work. The small details need to matter.
- ◆ Positive, professional demeanour
- ◆ Flexible. Being open to variable work. As a small company, staff are generally multi-tools and will provide support where needed.

We hope our core values speak to you:

- ◆ Client First – We want to make our Clients happy. That drives us.
- ◆ Help Out – We support each other and chip in wherever needed. We are a team!
- ◆ Own It – We do not accept “close”. We are committed to the end.
- ◆ Collaborative Solutions – Every problem has multiple solutions. We want to find the one that works best for everybody: technical excellence, meets schedule constraints, meets cost implications, meets aesthetics, meets....

The work at METHOD is challenging, engaging, and ever-changing. This role is a great opportunity for an individual looking to be a key member in a growing professional-service firm. There will be opportunities to expand your duties and responsibilities here at METHOD. We offer a competitive salary and benefit package that will reflect your experience and qualifications.

We recognize the effort put forth by each applicant and are very appreciative for their time, however, only those applicants being considered will be contacted.
